1. Introduction

- 1.1** MultiSoft has developed a mobile solution for Microsoft Dynamics NAV called WMS.MobileNAV.
- 1.2** MultiSoft is an independent, Hungarian owned enterprise and has a valid contract with Microsoft Hungary for the selling and support of the ERP system Microsoft Dynamics NAV (further on referred to as Navision). Based on the above MultiSoft accepts no responsibility whatsoever for any commitments or contracts of Microsoft, of Microsoft Hungary, or for any Partners thereof.

2. Subject of the Contract

Components of the WMS.MobileNAV solution

- **WMS.MobileNAV Add-On:** contains the objects that are necessary on the NAV server side
- **WMS.MobileNAV Configuration:** contains the objects (pages and codeunits) as well as additional configuration for the WMS.MobileNAV Client App. The configuration controls the client app user interface and behavior.
- **WMS.MobileNAV Client App.:** running on hand-held (phone, tablet) hardware
- **WMS.MobileNAV Client App. Licence:** the solution has a device-based licensing model, where the customer has to specify the number of devices on which the WMS.MobileNAV Client App will run. The Licence is not bound to actual devices, and it is not a concurrent Licence.
- **Published Pages and Configuration:** Available functions and fields described in published NAV pages, and WMS.MobileNAV configuration, which contains metadata information about published pages and

codeunit. Basically, the published pages correlate the complexity of the functionality.

- **ISV Device CAL:** is a license that allows either one POS Device or one Warehouse Device to access the ERP solution.

Our business model is the following: MultiSoft maintains the WMS.MobileNAV Add-on, and the WMS.MobileNAV Client app, and the Partner of the End User maintains, customizes the WMS.MobileNAV Configuration and Published Pages.

3. Validity of the Contract

By installing, having installed, subscribing to, or using the software, you accept this agreement (including any modifications made to them from time to time). If you do not accept this agreement, do not install, have installed, subscribe to, or use the software.

If an individual enters into this agreement on behalf of a legal entity, that individual represents that he or she has the authority to bind that entity to this agreement.

4. Definitions

- "you" means the legal entity that has agreed to these license terms and your affiliates;
- "Affiliate" means any legal entity that owns, is owned by, or that is under common ownership with a party;
- "ownership" means more than 50% ownership
- "ISV Device" means the hardware or any software customization using the ISV Device CAL to access the ERP Solution
- "Performing warehouse functions" means receiving, putting-away, doing internal stock transfers, picking, packing, and shipping goods plus performing inventory count checks in the context of a warehouse management system and posting output and materials consumption against production orders when captured as transfers of raw materials and finished goods between a warehouse and a production line. All other types of transactions are excluded;

H-1112 Budapest, Kőérberki út 36. • Mailing address: H-1506 P.O.B. 5

Tel.: +36 1 310 1492 • Fax: +36 1 310 1497 • WMS.MobileNAV@multisoft.hu • www.WMS.MobileNAV.hu

- “Warehouse Device” means one device dedicated to performing warehousing functions, and that may not be used for any other purposes. Each Warehouse Device must:
 - Communicate with Microsoft Dynamics NAV 2013 via one of the following methods:
 - Through the ADCS Connector provided by Microsoft where the Warehouse Device would use a VT emulator via the Microsoft Dynamics NAV Mini Forms.
 - Through web services where the Warehouse Device would use an “ISV.net Client” to communicate to Microsoft Dynamics NAV via Web Services.
 - Not have cellular capabilities.
 - If the device is hand held, have a built-in barcode scanner.

5. Installation and Use Rights

To performing warehousing functions:

- The ISV Device CAL is only available if you have licensed the Extended Pack;
- Each ISV Device must be identified in the application’s security table by its Media Access Control (MAC) address. Software solutions may not be used to mask the device’s true MAC address.

WMS.MobileNAV Add-On: You must purchase a WMS.MobileNAV Add-On license from your Microsoft Partner to use the WMS.MobileNAV. The use rights of this Add-On are defined in the EULA published by Microsoft.

WMS.MobileNAV Client App: You may only use the client software with the WMS.MobileNAV Add-On. You may install an unlimited number of copies of the client software to access your database. The client software may be used only by the number of licensed devices or pages that your license key permits.

WMS.MobileNAV Configuration: You may use the configuration for unlimited workflows and business areas. You also have the permission to modify the configuration.

ISV Device CAL: You must purchase the ISV Device CAL from MultiSoft Ltd. to use the WMS.MobileNAV.

6. Types of licenses

- **Types of Device CALs.** There is one type of Device CAL:
 - **"ISV Device CAL":** is a license that allows either one POS Device or one Warehouse Device to access the ERP solution.

The End User must acquire and assign a CAL to each device that accesses the WMS.MobileNAV solution directly or indirectly. Each device can be used by multiple users.

7. Terms specific to our license model

Your rights to use the software are permanent but may be revoked if you do not comply with the terms of this agreement. Our WMS.MobileNAV solution is not entertaining the Subscription licensing model.

8. Additional Licensing requirements and/or Use Rights

8.1 Multiplexing

Multiplexing (sometimes referred to as "pooling") is a manner of indirect hardware or software access ("indirect access") that

- pools connections,
- reroutes information,
- reduces the number of users that directly access or use the software, or
- reduces the number of users the software directly manages.

Any user accessing the ERP Solution through a multiplexed connection must be appropriately licensed with a CAL.

8.2 Business Process Outsourcing

You **can** use the software to provide business process outsourcing services to your clients or customers. You may make your CALs available to business process outsourcers acting on your behalf and providing services to your business.

9. Copyright

WMS.MobileNAV is protected under copyright; copyright will remain with MultiSoft. Copyright notices, serial numbers and other means of identification of WMS.MobileNAV may not be changed or removed by the End User.

10. Third party products

WMS.MobileNAV utilise device capabilities and functionalities of third party products. For example instant email sending, phone call, map integration, GPS tracking. MultiSoft undertakes a limited responsibility for these third party products.

11. Limited Warranty

If you follow the instructions, the software will perform substantially as described in the Microsoft materials that you receive in or with the software.
